## Overview

The Theatre Studies Bachelor of Arts degree is designed to offer a thorough foundation in theatre while providing flexibility and opportunity for interdisciplinary study with a required minor. The strength of this program is in the opportunity to combine theatre training with the secondary area of study to create career opportunities in theatre and the entertainment industry. Students find direct career paths and a boost in the job market through the combination of major and minor. Students are open to selecting any minor or second major offered within the university. Upon graduation, UCF students can choose to pursue further education or enter the job market with a skill set unique to their goals.
